

## MID FLORIDA EYE CENTER CELEBRATES NATIONAL SIGHT WEEK

### PROUDLY GIVING BACK TO OUR COMMUNITY

Mid Florida Eye Center is proud to celebrate the third annual National Sight Week by gifting cataract surgeries to three members of our community. Made possible by the Operation Sight network, this treatment will include operation in both eyes of the chosen patients. Mid Florida Eye Center provides hope for those less fortunate in our community by offering the life-changing gift of vision during this week of awareness.

Operation Sight is a charitable cataract surgery program started by the ASCRS foundation. They have donated over 2,600 free sight-restoring surgeries in the US since their launch in 2014. Over 247 volunteer surgeons have provided one or more charitable surgeries, and we are proud to participate.

Celebrate National Sight Week with us by taking the time to focus on your optical health today.
